

Freedom to grow your pharmacy business

Realize your ambitions with up to **4X your monthly NHS income** in additional funding

From dispensaries to community healthcare

There has never been a more exciting time to build a pharmacy business. As more people seek wider healthcare services locally, pharmacies are ideally placed to meet their needs.

Growth opportunities range from delivering additional clinical services, providing a superior customer experience that makes you stand out, and acquiring additional pharmacies. Whether you've just acquired your first pharmacy or already have a pharmacy group, further growing and modernising your business requires a substantial investment.

That's where we come in. We provide **up to 4X your monthly NHS income** in additional funding to help you meet your customers' evolving needs and build your business.

"RxBridge's facility has been built from the bottom up specifically to meet the needs of groups like ours. It is designed for pharmacy."
